Version 01

The Catch-Up Premium 2017-2018

How much Catch Up premium funding has Park Hall Academy received for this academic year, 2017-2018?

At present, we have been awarded £21,000; adjustments will be made after the October 2017 census though. We therefore expected an income of £23,500

How does Park Hall Academy intend to spend the funding with reasons and evidence?

Based on the recommendations by the DfE in their evidence based research recommendations we propose to spend the funding on the following resources.

Please note, the following information has been rounded for reporting purposes. More detailed figures are available.	2017-2018
	Predicted
INCOME	
Catch-Up Premium Grant	23,500
Total Income	23,500
SPEND	
Park Hall Internal Staffing	
Intervention and LSAs	1,900
Sub-total	1,900
Other	
External Specialist Literacy Teacher	10,800
External Specialist Numeracy Teacher	10,800
Sub-total	21,600
Total Spend	23,500

Version 01

How did Park Hall Academy spend the Catch-Up premium funding we received for last academic year 2016-2017?

Please note, the following information has been rounded for reporting purposes. More detailed figures are available.	2016-2017
	Actual
INCOME	
Catch-Up Premium Grant	21,000
Total Income	21,000
SPEND	
Other	
External Specialist Literacy Teacher	10,500
External Specialist Numeracy Teacher	10,500
Sub-total	21,000
Total Spend	20,000

How did the premium make a difference to the attainment of those who attracted the funding?

We are unable to make comparisons to the achievement of pupils last academic year as the 'secondary ready' measure is now based on standardised scores and the school has moved towards a new grading system at Key Stage 3 at the start of the academic year.

Of those pupils who were not 'secondary ready' in reading at the end of primary school, 20% are currently now making the expected level of progress against their individual targets in English, on a flightpath to a grade 5 at the end of Key Stage 4. 44% of pupils are at least making the minimum expect progress with the remainder working towards. The rates of progress are stronger for those who are also disadvantaged, with 26% making the expected level of progress and 58% making at least the minimum expect progress.

78% of pupils are working at a grade 2 with the 22% working at a grade 1. Therefore, the Catch Up Premium has helped to ensure a significant majority of pupils have achieved a grade 2, the most common grade for pupils who were secondary ready upon starting Year 7.

Of those pupils who were not 'secondary ready' in Maths at the end of primary school, 9% are currently now making the expected level of progress against their individual targets in Maths, on a flightpath to a grade 5 at the end of Key Stage 4. 30% of pupils are at least making the minimum expect progress with the remainder working towards. The rates of progress are stronger for those who are also disadvantaged, with 10% making the expected level of progress.
