The Snow didn't stop us—but look at some of these Snow-men that students were able to create in the two days of Snow we were able to enjoy.

With only 18 months to go the Commonwealth Games is moving another step closer and to help with preparations we're inviting residents, businesses, schools and organisations across the Borough to start sharing your ideas, priorities and expectations for the Games. The responses received from this survey will help inform the council's planning and investment over 2021 and 2022 – particularly ensuring that the opportunities the Games creates are relevant and accessible to everyone.

The Birmingham 2022 Commonwealth Games are happening, and take place between 28 July to 8 August. It is a once-in-a-lifetime opportunity to showcase the West Midlands on the global stage. The most dedicated, highly trained and determined athletes from across 71 nations will come together in a momentous celebration of sport, competition and community.

Solihull Council is one of the host authorities, with 6 events (Badminton, Weightlifting & Para Powerlifting, Boxing, Table Tennis and Netball) taking place at the NEC. The Council is researching what activities and events might be delivered in association with the Commonwealth Games. This short survey will contribute to that research and inform the types of activities, events opportunities the Council can consider providing for the Borough.

The survey should take approximately 5-10 minutes to complete. There are two versions, one specifically for children and young people, as well as one for all residents and stakeholders living and working in the Borough.

The survey will close at 12pm on 17th February so please participate and share before then.

Year 11 English

Whilst studying Macbeth, students have created some fantastic pieces of work. Here is the work of **Emmie Masters**, **Kate Twigg** and **Naomi Mafina**.

Macbeth Lesson One:

- What is meant by context?

1. The great Chain of Being

2. God was seated at the top of the great chain and royal ministers at the bottom. Ministers were placed near the middle.

3. All the names used to be given into chaos.

4. James I (James II of Scotland)

5. Religion, burning or showing.

In the play Macbeth Macbeth is introduced to the witches that tell a few prophecies, these witches have a diabolical nature and threw the world into chaos by being loyal to the Devil and creating suspense and an atrocious act which led to Macbeth being confused and controlled and Lady Macbeth crazy, cowardly and demoralized.

Shakespeare society was very different to modern times for example, women were not given a choice for their future it was already set that they had to have a husband and raise the kids. Women were property, they could not swap the roles of men and were never given any power except for the power their husbands held in society.

1. Who are Macbeth and Banquo?

Banquo is the throne of Scotland and Macbeth is not. Macbeth was one of the king's strongest loyal soldiers who took more on himself than a thousand traitors and men after killing his king.

a vision of a bloody dagger

6. The chamberlains die next and Banquo

7. Banquo's ghost visits Macbeth at feast

8. Be aware of Macduff

9. Lady Macduff and her children are murdered

10. Macduff joins Malcolm

11. Lady Macbeth kills herself

12. Macduff kills Macbeth.

Recapping the plot of Macbeth.

1. Macbeth is the Scottish general and Banquo is another of King James' generals.
2. The witches say that Macbeth will be made Thane of Cawdor and eventually King of Scotland.
3. The witches say that Banquo will start a line of Scottish kings, although he won't be king himself.
4. Lady Macbeth wants Macbeth to kill Duncan so that they have power.
5. Macbeth has a vision of a bloody dagger.
6. Banquo dies next but his son escapes.

Characters

There are many characters in Shakespeare's Macbeth. The first few characters we are introduced to are Macbeth who is described as the brave Scottish general, Banquo who is also a general in King Duncan's army. The three witches that tell Macbeth and Banquo of their futures, King Duncan who Macbeth is the first to kill, Lady Macbeth who is Macbeth's wife, Malcolm who is King Duncan's son that flees after the king's death and fear he will be next and Macduff who is the man who kills Macbeth in the end of the story.

Year 10 Health and Social Care have been working through their assignment based on a celebrity of their choice. Throughout their research they have found information on their chosen celebrity, including facts, pictures and life events. They have used this information to create a scrapbook to showcase their celebrity and how their growth and development advanced throughout their life. We have now moved onto the next part of the assignment where the students are now writing a report to identify what factors played a role in affecting their celebrities growth and development. Fantastic start to their assignments showing creativity and understanding of their celebrities life events. **Miss Mills**

Caroline flack was affected by growth and development. These are split in 3 sections physical social culture and economic physical factors has affected her growth and development that includes diet exercise smoking drugs and alcohol and appearance all of these had affected her physically emotionally and socially development one of these factors led to her death.

The main physical factor in Caroline's life was appearance this was because she was a presenter on various tv shows and had to ensure her appearance was always appropriate and that she looked healthy.

In school Caroline grew up as a sickly child in her family this was because she had a skin disorder and also had extremely skinny legs so most people in her school bullied her for being "different" most people knew about this because she always wore dresses skirts and shorts. This affected her in all her developments such as socially because she chose not to spend time with her friends and do the same activity's this also affected her emotionally because she got bullied and she also had really bad mental health this affected her much more in physically because she wanted to take part in the same tasks her friends and siblings did but her legs wasn't stronger enough for her to take part.

Future Star...

Charlie Palmer is a quiet studious student in **8SI**.

Charlie is absolutely passionate about football and Aston Villa, having had season tickets in the Holte End.

Charlie loves playing football but because of his needs he couldn't always cope in a school football team. But, Charlie signed for the Ability Counts team just over two years ago and he's absolutely loving it. He plays at the Villa Academy, playing all over representing Aston Villa. This has included him playing at St George's Park, (The National Football Centre) and Vicarage Road Stadium (Home of Watford Football Club).

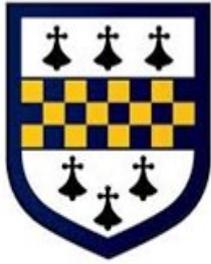

Charlie, along with the Aston Villa Academy has created a Campaign video for the FA the Premier League showing that children with disabilities and additional needs, can still play football.

Since joining the Academy, Charlie has scored 40 goals, which for a defender is pretty good! He has a powerful right foot. But right now, like many others, he is desperately missing his football.

Charlie is a lovely lad, quiet at school but an absolute whirlwind at home. And on the football pitch.

We look forward to seeing what you achieve over the next couple of years Charlie. Well done!
