

How to create IE11 shortcut on Windows 10

To access the remote solution from windows 10 you will need to create a shortcut to internet explorer 11, to do this follow these steps

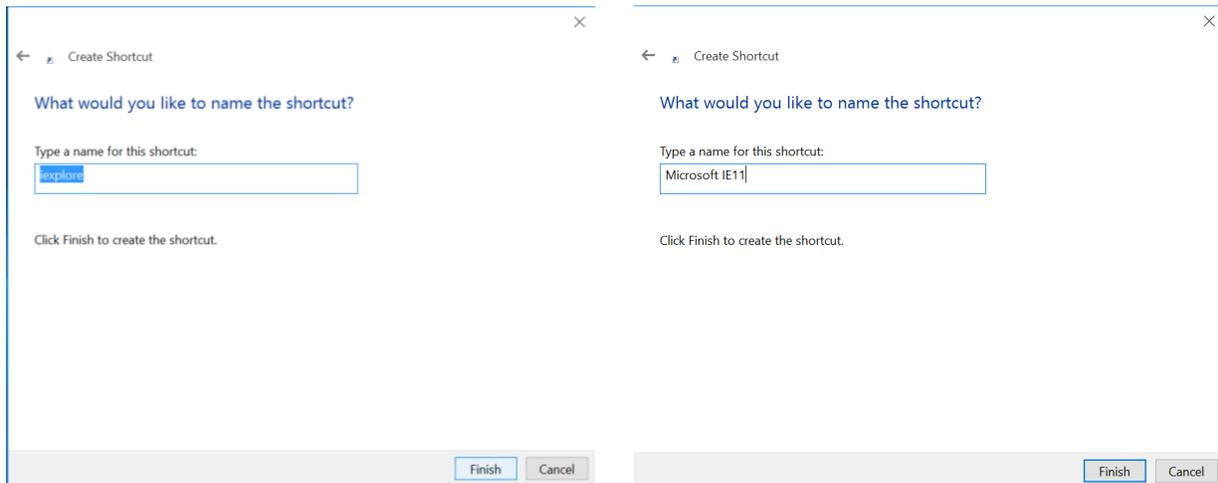

Step 1 – Right click on the desktop go to new and select shortcut

Step 2 – When the following screen opens type or copy “%programfiles%\Internet Explorer\iexplore.exe” (without quotes) now click next

Step 3 – You will then be taken to the following screen we recommend to change the default name from iexplore to Microsoft IE11 or an appropriate name and click finish

Step 4 – You should now see the new shortcut on your desktop
