Not happy with grade?

|

Speak to Teachers, School Senior Leaders

|

Teachers will be able to discuss with you how many marks off you are from the next grade and whether a review of marking would be advisable.

|

We could also call for your scripts so you and your Teachers can see how you answered questions. Again, Teachers will then be able to advise if a review of marking may improve your grade.

|

There is a deadline for calling for exam papers and requesting a review of marking, so please ensure you speak to your Teachers promptly for information and advice.

|

If your Teachers are disappointed with a whole cohort's grades, they may ask for all the grades to be reviewed. This would be discussed with you and your consent is required.

|

We may ask for your consent to call for your exam script, to enable us to use it in the classroom in the future. You have the opportunity of having your name removed so it is anonymous.

|

Written/email consent is required for any post results services.
